

Lakeland Children's Center Newsletter

Ben Franklin Edition

We hope you had an amazing and safe Halloween!

October is over and the weather is changing, although we have had a lot of rain, the children still manage to get their outside play time. Dress appropriately, we have had ice and snow storms this time of year, so be prepared!

Everyone at the center has adjusted nicely. There are no more children with tears asking for mommy, now it is the opposite, the kids are crying because they want to stay. They have been very happy playing games, creating art, and doing crafts.

We have continued with some of our favorite enrichment programming as well as adding a few more. We are in the middle of our hand sewing program and it has proven to be a winner. Star Lab from the Mid-Hudson Museum is making its rounds and the kids truly enjoyed it! We also added Go Slow Whoa! This is an exciting program set up like a game show, the kids got to learn as well as show off their knowledge.

I would like to introduce Ms. Lambert, she is our new tutor working along side Mrs. Katz. These

two women are amazing. We have over half our enrollment a day going to homework, without a complaint. This is amazing when we have over sixty kids a day.

Well, as you can tell Ben Franklin Children Center is going smoothly, we are settled and enjoying each other's company.

NOVEMBER 2018
